Abdul Samad

Frontend Developer

Phone: +91-7037887783 — Email: absamad1188@gmail.com — LinkedIn — GitHub — Portfolio

Professional Summary

Frontend Developer with an MCA and hands-on experience building responsive, user-centric web applications using **HTML5**, **CSS3**, **JavaScript**, **React.js**, **Next.js**, and **Tailwind CSS**. Proficient in developing reusable UI components, integrating **REST APIs**, and optimizing application performance. Familiar with **SQL**, **MySQL**, **Git**, **Power BI**, and **Python**. Seeking an entry-level Frontend Developer role to contribute to scalable web applications.

Technical Skills

Languages: HTML5, CSS3, JavaScript, SQL, Python
Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design
Database: MySQL
Tools: Git, GitHub, VS Code, Vercel, Netlify
Other: REST APIs, Power BI, Machine Learning

Experience

Operations Executive May 2025 – Oct 2025
Startek

- Maintained strong process accuracy and consistency across operational workflows, applying detail-oriented practices relevant to clean, maintainable code.
- Coordinated with cross-functional teams to resolve issues, building collaboration skills relevant to agile development environments.

Machine Learning Intern (Remote) Aug 2024 – Nov 2024
CodeAlpha

- Cleaned, preprocessed, and validated datasets using Python (Pandas, NumPy), strengthening logical problem-solving skills applicable to frontend development.
- Built and evaluated ML models remotely, gaining experience with technical workflows, version control, and iterative testing.

Projects

Portfolio 2026
Next.js, React.js, Tailwind CSS, Framer Motion

- Designed and developed a fully responsive personal portfolio website using Next.js and Tailwind CSS.
- Implemented reusable React components, Framer Motion animations, project showcase, and contact section.
- Deployed the application using Vercel.

Weather Application 2026
React.js, OpenWeather API

- Integrated the OpenWeather API to provide real-time weather updates.
- Designed a responsive interface displaying temperature, humidity, wind speed, and conditions.

Contact Form Application 2026
Next.js, React.js, Tailwind CSS

- Developed a responsive contact form with real-time input validation using React.js and Tailwind CSS.
- Implemented success/error notifications and an accessible, mobile-friendly form design.

EdTech Startup Analysis 2024
Power BI, SQL, Python

- Analyzed EdTech startup data to identify funding trends and key business performance metrics.
- Built interactive Power BI dashboards visualizing revenue, customer acquisition, and investment insights.

Stock Closing Price Prediction 2024
Python, Machine Learning

- Built a machine learning regression model to predict stock closing prices.
- Performed preprocessing, feature engineering, visualization, and model evaluation using Python.

Education

Master of Computer Applications (MCA) 2022 – 2024
Maulana Azad National Urdu University *CGPA: 8.13*

Certifications

- Full Stack Data Science Pro
