Summary

MCA graduate skilled in **HTML, CSS, JavaScript, and Responsive Web Development**. Experienced in **Frontend Development, UI Design, API Integration, and Web Application Development**. Hands-on experience building interactive, user-friendly, and mobile-responsive applications, including a Weather Web App, with a focus on **Performance Optimization** and **User Experience (UX)**.

Education

- **Master of Computer Applications (MCA)** *2024*
  MAANU, Hyderabad CGPA: 8.13/10.00

Experience

- **Data Science Intern** *Oct 2023 – Nov 2023*
  Oasis Infobyte Remote
  - **Data Analysis**: Analyzed datasets using Python (Pandas, NumPy) to identify patterns and trends.
  - **Data Cleaning**: Performed preprocessing and data cleaning to improve dataset quality.
  - **Data Visualization**: Created visualizations to support exploratory data analysis and insights.

Projects

- **Stock Price Prediction** *2024*
  Python, Pandas, Scikit-learn
  - **Exploratory Data Analysis**: Performed EDA on historical stock data using Pandas and NumPy to identify trends and correlations.
  - **Model Development**: Implemented Linear Regression using Scikit-learn to predict stock prices.
  - **Model Evaluation**: Evaluated model performance using R-squared and error metrics.
- **Sales Dashboard** *Aug 2024 – Sep 2024*
  SQL, Power BI
  - **Data Cleaning**: Cleaned and transformed sales datasets using SQL queries before analysis.
  - **Dashboard Development**: Developed interactive Power BI dashboards to analyze sales performance and revenue trends.
  - **Business Insights**: Generated insights on regional sales and product performance.
- **EdTech Startup Data Analysis** *Nov 2024 – Dec 2024*
  SQL, Power BI
  - **Data Exploration**: Performed SQL-based analysis on course ratings and viewer engagement data.
  - **Data Visualization**: Built Power BI dashboards to visualize course popularity and user engagement.
  - **Insights Generation**: Identified patterns in course performance to highlight potential growth opportunities.
- **Weather Web Application** *2025*
  HTML, CSS, JavaScript, OpenWeather API
  - **API Integration**: Integrated OpenWeather API to fetch real-time weather data using JavaScript.
  - **Dynamic UI**: Implemented DOM manipulation to update background based on weather conditions.
  - **Responsive Design**: Designed a responsive interface using HTML and CSS for improved user experience.

Skills

- **Programming:** Python, SQL, JavaScript, HTML, CSS
- **Data Analysis:** Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)
- **Machine Learning:** Scikit-learn, Matplotlib, Seaborn
- **Tools:** Power BI, Excel, Git, VS Code, Streamlit

Certifications

- **Full Stack Data Science Certification** — Physics Wallah (2025)
